Artistic Threads

Drawing inspiration from its quilt collection, the Museum of Darien (MoD) held an opening reception and holiday party for the Common Threads art exhibit. Abstract pieces of art, created by The Concepts Group, represented the theme in a modern, imaginative way. This marked the fourth show at MoD for The Concepts Group, which donated a portion of art sales to the museum. Guests, who were encouraged to wear “uncommon threads” or something “outrageous” for the festivities, were as colorful as the art on display. museumofdarien.org —Elizabeth Hole »
